

## Job Description

### About Fantech Labs:

Fantech Labs is a leading-edge company specializing in technology and business solutions. Our mission is to empower businesses by delivering innovative solutions that address global challenges. We foster a collaborative work environment where creativity, learning, and growth are at the core of everything we do.

**Job Title:** Associate Software Engineer

**Location:** Okara, Pakistan (Onsite)

**Job Type:** Full-Time

**Office Hours:** Monday to Friday, 9:00 AM – 6:00 PM

### About the Role

Fantech Labs is looking for a passionate and motivated **Associate Software Engineer** to join our team. This is an excellent opportunity for fresh graduates or early-stage professionals who are eager to grow their careers in software development. As an Associate Engineer, you will work under the guidance of senior engineers to design, develop, test, and maintain applications across different domains and technologies.

### Responsibilities

- Assist in developing and maintaining software applications as per project requirements.
- Collaborate with senior engineers on design, coding, testing, and documentation tasks.
- Write clean, maintainable, and efficient code.
- Participate in code reviews and learn from constructive feedback.

- Debug and resolve technical issues to ensure reliable system performance.
- Stay updated with new tools, technologies, and best practices in software engineering.

## Requirements

- Bachelor's degree in Computer Science, Software Engineering, or a related field.
- 0–6 months of practical experience in software development (internships or personal projects are acceptable).
- Good understanding of programming fundamentals (data structures, algorithms, and object-oriented programming).
- Familiarity with at least one programming language
- Basic knowledge of databases and SQL.
- Understanding of version control systems such as Git.
- Strong problem-solving mindset and eagerness to learn.
- Good communication and teamwork skills.

## Good to Have Skills

- Exposure to REST APIs and client-server architecture.
- Familiarity with modern software development tools and frameworks.
- Basic knowledge of software testing and debugging techniques.
- Awareness of agile methodologies and collaborative development practices.

## Who Should Apply

This role is ideal for **fresh graduates or candidates with up to 6 months of experience** who are looking to build a strong foundation in software development. Candidates based in or near **Okara** are highly preferred due to the onsite nature of this role.

## How to Apply

Interested candidates are encouraged to send their updated resume to: **[jobs@fantechlabs.io](mailto:jobs@fantechlabs.io)**

Please mention **“Associate Software Engineer”** in the subject line of your email.
