

MUHAMMAD RAHEEL TAHIR BAIG

Lalazar Colony Sahiwal, 57000, Pakistan • +923430636145 • baigraheel96@gmail.com

SUMMARY

Bringing strong communication skills and natural ability to empathise with customers, I excel in creating positive and productive interactions. My background in customer service has honed my problem-solving and active listening skills. I am confident in handling challenging situations with patience and professionalism. Experienced in creating responsive, user-friendly websites and applications with focus on clean design and functionality.

EXPERIENCE

Web Developer Intern, 02/2025 - 08/2025

AI 3D Scanning (Merge with Medtronix Systems) - Sahiwal, Punjab, Pakistan

- Utilised HTML, CSS, and JavaScript to develop responsive web pages, improving site accessibility across devices.
- Developed secure backend systems using PHP, Laravel, and MySQL, focusing on authentication, data handling, and performance optimization for scalable web applications.

Call Centre Agent, 04/2023 - 08/2023

First Communication Solutions (FCS) - Sahiwal, Punjab, Pakistan

- Employed strong communication skills to explain complex information in a clear and understandable manner to customers.
- Remained calm under pressure to handle customer complaints, and solve problems.

Call Centre Operator, 06/2021 - 12/2022

Cheeziious - Sahiwal, Punjab, Pakistan

- Increased customer satisfaction by offering friendly, helpful and informative customer service.
- Handled and quickly resolved customer issues regarding product sales and customer service problems.

Computer Operator, 10/2019 - 03/2020

AI Urooj Computers - Sahiwal, Punjab, Pakistan

- Collaborated with team members to achieve target results.
- Managed complaints with calm, clear communication and problem-solving.

WEB PROJECTS

- Full-Stack Web Development Projects** – Built and deployed multiple dynamic web applications, including a plant e-commerce website (PHP/MySQL) with user and admin dashboards, a solar pricing platform (Laravel), and a Trello-inspired task manager “Medtronix” (Laravel).
- Frontend & UI Implementation** – Converted Figma designs into fully responsive, pixel-perfect landing pages for Framewise, Netsoo, and AI 3D Scanning websites, ensuring cross-browser compatibility and modern UI/UX standards.
